AN ISO 9001:2015
CERTIFIED COMPANY

PRICE LIST-01/12/2025

This is the story of a team that followed an innovation and uncompromised Quality. ISC has been relentless in its commitment to Quality and service since 2018.

The leader in the cPVC Pipes and Fittings is ISO 9001:2015 certified company, the company employees latest processes and techniques to manufacture quality Pipes and Fittings.

Qualified and highly experienced workforce and stringent processes and systems ensure products are the finest in the industry in terms of Quality and Performance.

Maxfit values are driven by happy customers and growth is recorded in satisfied smiles.

Our Legacy & Journey

Established in 2018 as a partnership firm under the name India Sales Corporation, the ISC Group began with a focused vision:

To build a reliable, innovative, and cost-effective piping solution brand that addresses the core needs of India's infrastructure, agriculture, and construction sectors.

With growing demand and our commitment to expansion, we incorporated ISC India Sales Pvt. Ltd. in 2023 to penetrate markets outside Delhi NCR and cater to a nationwide demand.

Our core identity—ISC—has quickly grown into a name trusted by thousands of dealers, plumbers, and builders, who now view us as a strong competitor to top brands.

Vision for the Future

To become India's most trusted brand in piping & sanitary solutions, delivering world-class products at affordable rates, and nurturing long-term relationships with every stakeholder.

OUR MISSION

To continuously invest in innovation and product development.

To consistently enhance our systems and processes.

To foster an empowering environment that supports the professional growth of our employees.

To leverage the latest technologies to ensure our products remain our strength.
To always deliver world-class quality at competitive prices, ensuring maximum customer satisfaction.

CPVC Pipes & Fittings

Made of chlorinated polyvinyl chloride, Maxfit cPVC Pipe & Fittings are manufactured according to ASTM D-2846 respectively. Maxfit cPVC Pipes & Fittings offer a long-lasting and cost-effective solution for hot and cold water in plumbing and potable water applications.

FEATURES AND BENEFITS

1. Smooth continuous flow of water due to smooth inner surface
2. Low thermal expansion & conductivity
3. Light weight & long service life
4. Easy to handle & installation
5. Flame & smoke resistant
6. Chemical Resistant
7. Resilient & longer lasting
8. Most cost-effective
9. Service temperature up to 83°C

UPVC PIPES & FITTINGS

MAXFIT High pressure uPVC solvent weld plumbing systems are the most suitable, easy and economical solution for transportation and distribution of potable water. This system is very easy to install and is functionally most suitable for plumbing applications like down-take and up-take lines, terrace looping and concealed pipe work in any building or construction. MAXFIT uPVC is a value added long-term plumbing solution for the building industry.

FEATURES AND BENEFITS

1. Excellent resistance to corrosion and chemical attacks
2. Maintenance - free & easy to install
3. Simple and leak proof joint
4. Better insulation properties
5. Designed to last for ages
6. Most cost-effective
7. Low thermal conductivity
8. UV resistant
9. Service temperature up to 60 C

UPVC PIPE & FITTING

- ✓ Corrosion & chemical resistant
- ✓ Strong, durable & long life
- ✓ Lightweight & easy to install
- ✓ Smooth flow with leak-proof joints
- ✓ Hygienic & safe for drinking water
- ✓ UV resistant & eco-friendly
- ✓ Cost-effective with low maintenance

AGRICULTURE PIPE & FITTINGS

"MAXFIT Agriculture Pipes & Fittings are designed for high performance in irrigation and water supply systems. Made from durable, corrosion-resistant materials, they ensure leak-proof connections, easy installation, and long service life. Ideal for all farming needs, MAXFIT offers trusted quality, strength, and efficiency for modern agricultural solutions."

UPVC

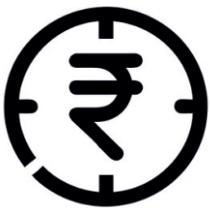

COLUMN PIPE

FOR SUBMERSIBLE PUMP

Advantage of MAXFIT uPVC Column

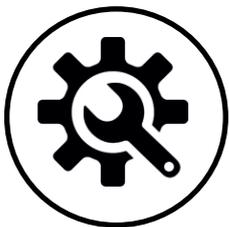

Life Span of 30 year and more

Pipes & its square threads do not deteriorate due to corrosion/rusting/reuse and are designed to have high load capacity

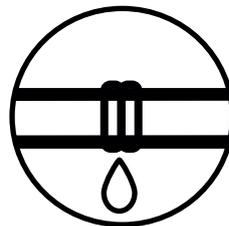

Operational cost and performance

Smooth inner surface leads to low frictional loss, thereby providing higher output & low energy and fuel consumption

Maintenance

Low maintenance

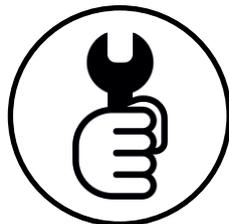

Leakage Resistant

Special Designed LPR system with precise square threads done on CNC machines makes strong leakproof joints

Locking System

MAXFIT Column Pipes have turbulence free vibration control

Easy to Install

Light weight 3 met length pipes are ea

S O L V E N T

Solvent cement is not glue; it's a chemical solution used to create strong, reliable joints between CPVC pipes and fittings. It consists of CPVC resin, stabilizers, and fillers dissolved in a mixture of solvents.

CPVC SOLVENT

946	4	24	792.00

UPVC solvent, also known as PVC solvent or PVC adhesive, is specifically formulated to bond UPVC pipes and fittings securely. It softens the surfaces of UPVC materials, allowing them to merge at a molecular level when applied.

Note: Expired solvent cement will not be taken back.

PVC solvent works by melting the surface of the PVC pipe and fitting. When the solvent evaporates, the two pieces of PVC fuse together, creating a bond that is often stronger than the pipe itself!
